

ASTROKERB

Dow AgroSciences

ASTROKERB® TANK-MIX COMPATIBILITY

This tank mix summary sheet provides information in addition to what appears on product labels. Dow AgroSciences supports the safety and efficacy of its products for tank mixes shown as Physically and Biologically Compatible, but does not warrant the efficacy of other tank mix partners. Where only Physical Compatibility or Sprayable with Continuous Agitation is shown, Dow AgroSciences has no biological data regarding efficacy or crop safety and only supports the compatibility, so growers use these mixes at their own risk.

For tank mixes of more than two products which are not specifically listed, only what is known about the products when in a two-way mix is shown, users must make their own judgment about the more complicated mixes which they may choose to use at their own risk. Similarly, a number of products are shown which have been replaced by more recent formulations for which tests have not been carried out. However the information is included for the user to draw his own conclusions.

Important Note: Tank mixes should only be made within the label recommendations of every product in the application.

☼ indicates sprayable with continuous agitation.

Updated: 22 June 2013

HERBICIDES

Physically Compatible (If additionally supported for BIOLOGICAL COMPATIBILITY listed in bold)	
ARAMO (not supported by BASF) Centurion Max (Not less than 200 L/ha water) Cleancrop Gyr 2 Crawler FALCON +/- FASTAC/CYPERMETHRIN Fox FUSILADE MAX + HEADLAND FORTUNE FUSILADE MAX + OIL +/- CYPERMETHRIN FUSILADE MAX + HALLMARK ZEON GALERA +/- HALLMARK ZEON	LASER + H FORTUNE +/- FASTAC/CYPERMETHRIN Laser + Galion + Markate 50 +/- Capitan <i>not supported</i> ¹ Laser + Galion + Markate 50 + Proline <i>not supported</i> ¹ Leopard + Galion + Markate 50 +/- Capitan <i>not supported</i> ¹ Leopard+Galion+Markate 50 + Proline <i>not supported</i> ¹ Panarex Pilot Ultra☼ SHOGUN Shogun + Capitan 25 + Hallmark Zeon☼ <i>not supported</i> ¹ Tepra☼
Not Compatible	
Galera + Proline	

FUNGICIDES

Physically Compatible (If additionally supported for BIOLOGICAL COMPATIBILITY listed in bold)

	Slither

NUTRIENTS

Physically Compatible (If additionally supported for **BIOLOGICAL COMPATIBILITY** listed in bold)

Bortrac	Mantrac 500/DF
CoRon	Molytrac
Croplift☼	Photrel
Librel Cu /Mg /Mn	Safe-N
Liquid Mn	Sulphur F3000
Magflo	Zintrac

NOTES:

☼ indicates sprayable with continuous agitation

¹ Although physically compatible or sprayable under continuous agitation, Dow AgroSciences does not support three-way tank mixes with graminicide and fungicide for crop safety due to possible fungicide PGR effects, so use is entirely at growers' own risk. We only support the grassweed efficacy and do not indemnify against PGR effects of fungicides.

Use plant protection products safely. Always read the label and product information before use.
For further information including warning phrases and symbols please refer to the product label.
